SUBJECT: Surf Sports Review

Now that we have completed the majority of another very busy season it is time to sit down and review our surf sports events. As you are no doubt aware there were a number of initiatives introduced this year and it is important we get the views of members regarding these initiatives.

There is also work still to be done in a few areas and again it is important members have input into these areas.

This get together will also provide the opportunity to update on the progress of the Surf Sports Strategic Plan.

The session will be conducted at **Brighton SLSC on Tuesday 24th May from 6.00 pm – 9.00 pm**
